To whom it may concern

Flowfast floor systems – compliance with USDA requirements

System: Flowfast floor systems
Manufacturer: Flowcrete UK Ltd

This is to certify that the above referenced product is acceptable to the United States Department of Agriculture (USDA) and its Food Safety and Inspection Service (FSIS) because it meets the following requirements:

1. It is suitable for the intended purpose and will not result in adulteration of food products if used and applied as intended or indicated on the label directions.
2. It will perform well under a daily regimen of rigorous cleaning and wet conditions.
3. It is impervious to moisture.
4. It contains no known carcinogens, mutagens, and teratogens classified as hazardous substances, heavy metals or other toxic substances.
5. It is not considered a pesticide and does not have pesticidal characteristics.

Flowcrete will provide to FSIS, upon request, and in a timely fashion, the complete chemical composition of the materials to manufacture the product.

The VOC content of our Flowfast systems is less than 10 grammes per litre.

Kind regards,

John Green
Technical Advisor
Flowcrete UK Ltd

Any recommendation or suggestion relating to the use of the products made by Flowcrete UK Ltd., whether in its technical literature, or in response to a specific enquiry, or otherwise, is based upon data believed to be reliable, however the products and information are intended for use by Customers having requisite skill and know-how in the industry and therefore it is for the Customer to satisfy itself of the suitability of the products for its own particular use and it shall be deemed that the Customer has done so at its sole discretion and risk.
