Organize

CACRCS DAYS 2021 Capacity Assessment of Corroded Reinforced Concrete Structures: from Research to Daily Engineering Evaluation

> 30 november-3 December 2021 Venue: ON LINE

> > 3<sup>rd</sup> Edition

# PRELIMINARY PROGRAM

SUPPORT OF

ASSOCIAZIONE ITALIANA DI METALLURGIA Associazione Italiana di Metallurgia

Associazione Tecnologi per l'Edilizia

fib Italy Young Members Group

Politecnico di Milano

# TOPIC

CACRCS DAYS 2021 edition will focus on practical engineering applications achieved by consolidated research work on corroded reinforced concrete and prestressed concrete structures.

Two round tables have been organised, the first one on information of pre-normative and normative documents, and the second one dedicated to sharing the experiences and needs of transport infrastructure stakeholders.

Since 2019 the Workshop has seen the participation of experts in the capacity assessment of corroded reinforced concrete structures. The workshop is open to young researchers, experts and practitioners.

In CACRCS DAYS context, professional engineers can find a community of people able to assist in practice problem solving and in making- decision procedures for the maintenance of existing structures.

# ORGANIZING COMMITTEE

Coordinators: Beatrice Belletti (University of Parma), Dario Coronelli (Politecnico di Milano)

Anna Magri (CTE)

David Fernández-Ordóñez (fib Secretary General) Luc Taerwe (Ghent University, Editor-in-Chief Structural Concrete Journal)

Isabella Giorgia Colombo, Marta Del Zoppo, Lorenzo Franceschini, Francesca Vecchi (*fib Italy Young Members Group*)

Carmen Andrade (*CIMNE - UPC*), Fabio Bolzoni (*Politecnico di Milano*), Joan Ramon Casas (*UPC*), Airong Chen (*Tongji University*), Zila Rinaldi (*Università di Roma Tor Vergata*), Jesus Rodriguez (*UPM*), Joost Walraven (*Em. TU Delft*), Weiping Zhang (*Tongji University*)

# SCIENTIFIC COMMITTEE

Andres Torres-Acosta (*Tecnologico de Monterrey*), David Bastidas (*University of Akron*), Tiziano Bellezze (*Università Politecnica delle Marche*), Benoit Bissonnette (*CRIB - Laval University*), Veronique Bouteiller (*University Gustave Eiffel*), Bruno Briseghella (*Fuzhou University*), Nuno Ferreira (*Arup*), Joost Gulikers (*Rijkswaterstaat*), Donatella Guzzoni (*ATE*), Raul Husni (*University of Buenos Aires*), Mehdi Kashani (*University of Southampton*), Federica Lollini (*Politecnico di Milano*), Sergio Lorenzi (*Università degli Studi di Bergamo*), Cecilia Monticelli (*Università degli Studi di Ferrara*), Chris Mundell (*Atkins*), Alan O'Connor (*Trinity College Dublin*), Alessandro Palermo (*University of Canterbury*), Fabrizio Palmisano (*Politecnico di Bari*), Frank Papworth (*BCRC*), Edoardo Proverbio (*Università di Messina*), Michael Raupach (*RWTH Aachen University*)

#### CALL FOR ABSTRACT

The CACRCS DAYS welcome all contributions related to the behaviour of reinforced concrete, fibre reinforced concrete and prestressed concrete structures damaged by corrosion; with both numerical and experimental approaches.

abstracts and papers may be submitted to the website of CACRCS event.

#### PAPER SUBMISSION

Authors willing to present their work at the CACRCS DAYS 2021 are invited to kindly submit an abstract in accordance with the sessions of the workshop. The abstract should not exceed 750 characters.

Extended abstracts (4 pages long) will be included in the Proceedings of the Workshop.

The Authors of selected extended abstracts will be invited to submit a full manuscript to a Special Issue of Structural Concrete. The submission of full manuscript will undergo the usual peer-review process of Structural Concrete.

The template for abstracts and extended abstracts is available on the CACRCS website (<u>www.cte-eventi.com/cacrcs/</u>).

#### AWARDS

Awards will be conferred to the most outstanding paper presented by a *fib* young member and to the most excellent paper presented in the workshop.

### **IMPORTANT DATES**

abstract submission abstract acceptance notification extended abstract submission extended abstract acceptance	30.05.2021* 15.06.2021 20.09.2021 15.10.2021
final extended abstract submission 30.10.2021	
author's registration	30.10.2021
presentation submission	15.11.2021
full manuscript to a Special Issue	
in Structural Concrete	28.02.2022

\*those interested in submitting an abstract after the deadline, please contact the organizing committee at the following address <u>cacrcs@cte-eventi.com</u>.

#### EVENT ON LINE

As a speaker, you will intervene live **in streaming** on Zoom from anywhere in the world.

The authors will be asked to sign a document authorising the use of the records of their presentations by the organizing committee for the purpose of the event.

This authorization document will be available soon on CACRCS website (<u>www.cte-eventi.com/cacrcs/</u>).

# SPONSORS

The companies interested in supporting the event can contact us by e-mail to <u>cacrcs@cte-eventi.com</u>

# PRELIMINARY PROGRAM

Special sessions are organised during the workshop. During the submission process, Authors are invited to kindly select the session where they are willing to present their papers. Each session will include both research and engineering applications focussing on what is needed for the evaluation of corroded structures.

CACRCS DAYS 2021 includes Round tables to promote discussions.

The virtual workshop offers didactic material for engineers, practitioners, scientists, concrete technologists, researchers, and academics to improve the knowledge about the corrosion of reinforced concrete structures.

# Tuesday 30 November

#### 11:00 (\*CET) OPENING OF THE WORKSHOP \*(Central European Time)

#### Welcome and Introduction

11:00 B. Belletti, D. Coronelli, Event Coordinators

11:15 Claudio Failla, CTE President

11:30 David Fernández-Ordóñez, fib Secretary General

11:45 Luc Taerwe, Editor-in-Chief of Structural Concrete

# "Structural assessment codes for corroded Concrete structures"

Round table on pre-normative and normative documents

The participants invited will share their views on normative (codes and standards) and pre-normative (model codes, manuals, guides) documents treating the structural assessment of existing deteriorated concrete structures with special emphasis on corrosion.

#### 12:00 Round Table 1st part

Liam Coleman, Waka Kotahi Transport Agency, New Zealand

Andy Ng, Department of Transport, Australia Torill Pape, Department of Transport and Main Roads, Australia Takumi Shimomura, Nagaoka University of Technology, Japan Huangjun Jiang, Tongji University, China Ditao Niu, Xi'an University of Architecture and Technology, China

### 13:30 Round Table 2<sup>nd</sup> part

Fabrizio Palmisano, PPV consulting, Italy: Eurocodes
Alfred Strauss, Institute of Structural Engineering (IKI),
Austria: *fib* MC2020
Agnieszka Bigaj-van Vliet, TNO, The Netherlands: *fib*Model Code 2020 & IM-Safe project
Rade Hajdin, Infrastructure Management Consultants,
Switzerland: IABSE
Christopher Higgins, Oregon State University, US
Dan Frangopol, Lehigh University, US

15:00 (CET) Closing of the 1st Round Table

#### 15:00-15:30 Coffee Break

#### A1) Basis of design, safety approach

#### **KEY-NOTE LECTURES**

15:30 **Robby Caspeele**, Ghent University Partial factor- based assessment of existing concrete structures: new developments and applications

#### 16:00 Peter Tanner, IETcc-CSIC

Perspectives and challenges in standardization for the assessment of existing structures

# A2) Models of material deterioration for the integration in the structural assessment

# **KEY-NOTE LECTURES**

#### 16:30 Carmen Andrade, CIMNE - UPC

Approach to the residual strength of steel bars due to corrosion

### 17:00 Federica Lollini, Politecnico di Milano

Evaluation of corrosion conditions of reinforced concrete structures exposed to chloride-bearing environment

# 17:30 Gomez E.D., Leporace-Guimil B., Conforti A., <u>Giovanni A. Plizzari</u>\*, Zerbino R., Duffo G.S., \*Università

degli Studi di Brescia Reinforced concrete and fibre-reinforced concrete elements exposed to chloride-rich environments

# PRESENTED PAPERS 1st part

# 18:00 Bolzoni F., Ormellese M., Proverbio E., Pedeferri M.

Big milestones in the study of steel corrosion in concrete

# 18:20 Bellezze T., Mobili A., Tittarelli F.

Durability benefits of galvanized steel in reinforced concrete under different exposure conditions

# 18:40 Russo N., Gastaldi M., Schiavi L., Strini A., Lollini F.

Chloride-induced corrosion initiation and propagation in sound and micro-cracked concretes

# 19:00 Benenato A., Ferracuti B., Imperatore S., Lignola G.P.

The surface crack width: an index to estimate the corrosion level of reinforcement

# 19:20 Bolzoni F., Beretta S., Diamanti M.V., Brenna A., Ormellese M., Pedeferri M.

Corrosion propagation: comparison of electrochemical and mass loss measurements

### 19:40 Zanotto F., Sirico A., Vecchi F., Merchiori S., Balbo A., Bernardi P., Belletti B., Malcevschi A., Grassi V., Monticelli C.

A preliminary study on accelerated corrosion tests performed on reinforced concretes admixed with biochar

# 20:00 (\*CET) CLOSING OF 1<sup>st</sup> DAY Wednesday 1 December

#### 10:00 (\*CET) OPENING OF THE 2<sup>nd</sup> DAY

A2) Models of material deterioration for the integration in the structural assessment

### PRESENTED PAPERS 2<sup>nd</sup> part

#### 10:00 Avadh K., Nagai K.

Investigating the effect of corrosion on cracking and tension stiffening in reinforced concrete by 3D mesoscale discrete model

# 10:20 Imperatore S., Benenato A., Kioumarsi M., Ferracuti B.

The corrosion influence on the bond performance of different reinforcement typology

#### 10:40 Torres-Acosta A.A.

Experimental determination of steel-concrete interface pressure due to steel corrosion products accumulation

# 11:00 Kioumarsi M., Ahmadi M., Imperatore S., Benenato A., Ferracuti B.

Predicting Bond Strength of Corroded Steel Rebars Using Modified Artificial Neural Networks

#### 11:20 Yilmaz D., Angst U.

Localised rebar corrosion morphology – Data collection on structures

# 11:40 Franceschini L., Vecchi F., Belletti B., Tondolo F., Sanchez Montero J.

Degradation due to Pitting Corrosion: A Constitutive Model for the Mechanical Behaviour of Corroded Prestressing Strands

#### 12:00 Pedrosa F., Andrade C.

Experimental results on the spatial variability of some concrete corrosion parameters

#### 12:20-12:30 Coffee Break

# B1) Structural assessment of corroded members (beams, slabs, columns, walls)

### **KEY-NOTE LECTURES**

13:00 <u>Weiping Zhang</u><sup>\*</sup>, Zhang Y., Chen J., <sup>\*</sup>Tongji University (Weiping Zhang, Yunpeng Zhang, Junyu Chen) Stochastic Analysis of Deterioration of Structural

Behavior of Rinforced Concrete Beams in Marine Atmosphere

13:30 **Joost Walraven**, Em. TU Delft Assessment of concrete structures with corroded reinforcement: development of recommendations

14:00 **Pieter Desnerck**, University of Cambridge Assessment of deteriorated reinforced concrete halfjoint bridges

### PRESENTED PAPERS

14:40 **Ding H., Jiang C., Gu X.L., Zhang W.P.** Simplified calculation methods for bearing capacities of corroded reinforced concrete columns in uniaxial compression

#### 15:00 De Domenico D., Messina D., Recupero A.

Ultimate capacity assessment of corroded reinforced concrete columns through a fiber hinge model

# 15:20 Dabas M., Martín-Pérez B., Almansour H.

Effects of Variable Pattern of Reinforcement Corrosion on the Structural Performance of Aged Columns

# 15:40 Zaghian S., Martín-Pérez B., Almansour H.

Nonlinear Finite Element Modelling of Bridge Piers Subjected to Corrosion, Freeze-Thaw Cycles, and Traffic Load

16:00 **Prieto M., Tanner P.** Assessment procedure of corrosion-damaged structures with stress field models

# 16:20 Haefliger S., Kaufmann W.

Experiments on locally corroded retaining wall segments and their assessment with the Corroded Tension Chord Model

# 16:40 Bouteiller V., Adelaïde L., Marie-Victoire E., Bouichou M., Thauvin B., Villain G.

Non Destructive Testing and Corrosion Health Monitoring of reinforced concrete slabs exposed to chloride ions

# 17:00 Casprini E., Passoni C., Marini A., Bartoli G.

Modelling corrosion effects in Reinforced Concrete structural members through equivalent damage parameters

# 17:00-17:20 Coffee Break

17:40 Di Carlo F., Isabella P., Rinaldi Z., Spagnuolo S. Influence of corrosion on the flexural behavior of corroded reinforced concrete beams

# 18:00 Cladera A., Ribas C., Ruiz-Pinilla J.G., Marí A.

Mechanical model for the long-term shear strength prediction of corrosion-damaged RC beams

# 18:20 Messina D., Scionti G., Proverbio E.

Effect of prestressing steel corrosion on failure mode in post-tensioned concrete structures

#### 18:40 Coronelli D., Rosati G.

Natural corrosion effects on prestressed beams failure modes

# 19:00 Coronelli D., Zandi K.

Rust never sleeps: natural and accelerated corrosion effects on the resistance of RC and PSC members

#### 19:20 Granata M.F., La Mendola L.

Influence of bond deterioration on shear-flexure failure of prestressed girders with post-tensioned tendons

# 19:40 Franceschini L., Vecchi F., Belletti B.

Service Life Prediction of Corroded Prestressed Concrete Beams based on Probabilistic Assumptions

20:00 (\*CET) CLOSING OF 2<sup>nd</sup> DAY

# Thursday 2 December

11:00 (\*CET) OPENING OF THE 3rd DAY

# B2) Assessment of corroded structures subjected to seismic or accidental actions

#### **KEY-NOTE LECTURES**

11:00 **Michael Fardis**, University of Patras Seismic assessment and retrofitting of concrete structures with corroded reinforcement

11:30 <u>Camillo Nuti</u>\*, Bergami A., Pelle A., Fiorentino G., Lavorato D., Quaranta G., Briseghella B., Rasulo A., \*Università degli Studi Roma Tre Ultra-high performance fibre reinforced concrete (UHPFRC) to improve durability and reduce greenhouse gas emissions

#### PRESENTED PAPERS

12:00 Njeem W., Aoude H., Martin-Perez B., Jrade A. Effect of Corrosion on the Flexural Response of Reinforced Concrete Beams Subjected to Blast Loads

# 12:20 Casprini E., Passoni C., Marini A., Bartoli G.

Corrosion effects: detection, evaluation and modelling for structural assessment

# 12:40 Francesca Vecchi, Lorenzo Franceschini, Beatrice Belletti

Capacity assessment of existing RC columns taking into account bi-axial shear failure

#### 13:00 Matthews B., Palermo A., Scott A.

Rate of Cyclic Shear Degradation of Circular Reinforced Concrete Columns due to Accelerated Chloride Corrosion

# 13:20 Celik A., Yalciner H., Kumbasaroglu A., Turan A.I.

Structural capacity of highly corroded reinforced concrete columns

### 13:40 Tastani S., Kyriakou A.

Assessment of reinforced concrete columns with corroded splices

#### 14:00 Mahboubi S., Kioumarsi M.

Seismic damage potential of RC bridge subjected to corrosion

#### 14:20 **Belletti B., Martinelli E., Michelini E., Vecchi F.** Seismic fragility assessment for an existing RC framewall dual system building with corroded bars

# <u>14:40 – 15:00 Coffee Break</u>

# C1) Prolongation of structural life with proactive or reactive interventions

# **KEY-NOTE LECTURES**

15:00 **Tamon Ueda**, Shenzhen University Prolongation of service life with structural interventions

15:30 **Benoit Bissonnette**, CRIB - Laval University Influence of various treatments upon prevention or mitigation of steel reinforcement corrosion in reinforced concrete

# PRESENTED PAPERS

# 16:00 Carisi F., Larocca M., Belardi A., De Paola A., Baldovin E., D'Antonio L., Vergnani M.

Safety by material restoraton of the flood detention basin's weir of the Enza river, Northern Italy

### 16:20 La Tegola A., Mera W.

Experimental research on reinforced concrete structures with CFRP bars in aggressive marine environment

#### 16:40 Basdeki M., Apostolopoulos C.

Mechanical behavior evaluation of B500c steel reinforcing bars with coating, in a marine environment

# 17:00 Becerra Mosquera J.A., Carro-López D., Herrador-Barrios M.F.

Prolongation of structural life in carbonated basements and car parks

# 17:20 Koulouris K., Gotsopoulos A., Apostolopoulos C.

Experimental study on the recovery's degree of bond strength after using repair mortars

# 17:40 Sousana Tastani

Corroded steel anchorages in strain resilient cementitious composites

# 18:00 Ruiz-Pinilla J.G., Montoya-Coronado L.A., del Río S., Ribas C., Cladera A.

Active confinement of beams and columns using ironbased shape memory alloys

# 18:20 De Luca A., Cao L.

Digital twins for predictive performance of reinforced concrete bridges

# 18:40 (\*CET) CLOSING OF 3<sup>rd</sup> DAY

# Friday 3 December

# 11:00 (\*CET) OPENING OF THE 3rd DAY

C2) Case studies for the assessment and structural evaluation of corroded existing bridges and infrastructures

# **KEY-NOTE LECTURES**

11:00 Akio Kasuga, Sumitomo Mitsui Construction Evolution of bridge construction - Non-metallic bridges

# 11:30 Edoardo Cosenza<sup>\*</sup>, Sessa M., Losanno D.,

**Bilotta A.**, \*Università degli Studi di Napoli Federico II Application of the new Italian guidelines for existing bridges: an early case-study

12:00 **Marco di Prisco**, Politecnico di Milano The maintenance plan for existing bridges: a useless piece of paper or a strategic document?

# PRESENTED PAPERS

12:40 Formisano A., Felitti M., Oliveto F., Mendicino L. Influence of different degradation mechanisms on structural robustness: the case study of a reinforced concrete arch bridge

13:00 Nagender T., Parulekar Y.M., Chattopadhyay J. Service Life Estimation of Corroded Reinforced Concrete Jetty

# 13:20 Proverbio E., Recupero A., Venturi V.

Integrating destructive and non-destructive inspection techniques in evaluating tendon corrosion in posttensioned concrete beams

#### 13:40 Kagermanov A.

Remaining capacity of corroded concrete bridge decks based on field inspection and nonlinear analysis

# 14:00 Kristufek L., Sanchez L., Martin-Perez B., Noël M.

Corrosion in prestressed and reinforced concrete in 56year old structure in Montreal Canada

# 14:20 Granata M.F., La Mendola L., Lo Giudice E., Messina D.

Effect of degradation on the structural behaviour of an existing cantilever reinforced concrete bridge in Southern Italy

#### 14:40 Spinella N., Messina D.

Flexural and Shear Capacity Assessment of Corroded Bridge Beams

#### 15:00 Yang Y., Sato Y.

Numerical assessment on prestressed post-tensioned T-girder superstructure with corrosion-induced defects

#### 15:20 Mohammed A., Almansour H.

Assessment of Safety and Serviceability of Aged Bridges subjected to Extreme Climate Loads

<u>15:40 – 16:00 Coffee Break</u>

#### 16:00 "Bridges and infrastructural networks"

Round table on bridges with transport infrastructure stakeholders (to be defined)

Invited transport infrastructure stakeholders, responsible for the maintenance and exploitation of transport infrastructures, with direct vision of the situation of bridges in the road networks, highways and railways, will share their experiences concerning corroded concrete bridges.

#### 17:45 (\*CET) CLOSING CEREMONY

- AWARDS
- Conclusion of the Workshop with Beatrice Belletti and Dario Coronelli

18:15 (\*CET) CLOSING OF THE WORKSHOP \*(Central European Time)

# **REGISTRATION FEES**

are VAT exempted and include participation in the virtual workshop and proceedings in electronic format.

#### Standard fee

(including CTE membership)

(for CTE, fib, aicap Member 2021)

#### **REGISTRATION FORM**

Reduced fee

You will **register** directly from the **CACRCS website** (<u>www.cte-eventi.com/cacrcs/</u>) and make the payment by credit card or bank transfer to CTE.
